

Southeast Basin I&I Project

Weekly Construction Update

The intent of this weekly update is to provide an overview of the construction completed and a projection of construction activities in the following week. It is intended to be a general overview and tentative in nature. Construction progress may differ from the information provided as a result of weather or other construction elements.

Construction Overview for the Week of July 14th – July 20th

- Municipal Pipe Tool's (MPT) subcontractor, Hagerty Construction, completed the pipe repair on N 10th Avenue, south of E. Main Street. Roadstone was placed as temporary surfacing until the remaining concrete patch work is completed at a later date.
- Hagerty began work on the point repair on E. 2nd Street, west of N. 11th Avenue. This work will be completed the week of July 21st.
- Hagerty began work on the point repair on N. 12th Avenue south of E. 11th Street. They encountered issues with the existing sanitary sewer at the pipe break location that required altering the pipe elevations over an existing storm sewer and correcting a sag in the existing sewer pipe crossing the roadway. Traffic is temporary closed on N. 12th Avenue to allow this work to be completed.

What to Expect the Week of July 21st – July 27th

- Municipal Pipe Tool's (MPT) subcontractor, Hagerty Construction, will complete the point repair on N. 12th Avenue on July 23rd. Traffic is temporary closed on N. 12th Avenue to allow this work to be completed. Concrete will be placed and the street opened by July 26th.
- Hagerty will complete the point repair on E. 2nd Street.
- Hagerty will continue working on point repairs at various locations.
- MPT will begin distributing door hangars in areas where pipe lining will occur and begin pipe lining.

What you need to know

- Working hours are generally Monday-Friday (7:00 am to 9:00 pm). Work on the weekends and at night will require city approval.
- The contractor is required to notify property owners if work will impact access to property.
- Please contact your local service provider of any utility outages.
- While the contractor is completing construction activities, roadway and driveway access may be temporarily restricted.
- Construction projects are fluid in nature and depend on many variables. Examples are poor weather, utility conflicts, unknown buried facilities, and fabrication schedules. We appreciate your patience and understanding as schedules are adjusted.

If you have any questions, please contact Adam Bolinger, project observer with FOX Engineering, at 515-290-5423 or email at alb@foxeng.com. In addition, you may contact Steven Soupir, Project Manager with FOX Engineering, at 515-233-0000 or email at sp@foxeng.com. Please do not contact the contractor directly if possible. Thank you for your cooperation in this matter.
