

City of Washington Residents:
Single Stream Recycling Cart Information

One container for all recycling materials, no separation is required, and you will start using your new recycling cart the week of July 1st, 2019!!! All recycling must be clean!!! NO PLASTIC BAGS!!

A friendly reminder of items that are not recyclable: WE DO NOT RECYCLE styrofoam, window glass, mirrors, electronic waste, motor oil containers, yard waste, chemical containers, plastic bags, ceramics or dishes, food waste, scrap metal, monitors, medical needles or waste, animal food bags, kitty litter bags.

Placement for curbside trash and recycling collection is incredibly easy, but it's also incredibly important to ensure your trash and recycling services are handled properly.

Place your cart at the curb with the arrows on the lid pointing toward the street, lid closed and with 4 feet of clearance around the cart from any obstacles such as other carts, mailboxes, yard waste bags, lamp posts, utility poles, etc. Please be sure that the cart is not placed under any low hanging branches or power lines. The best place to make sure cart is clear of all obstacles is one on each side of driveway. If this is not possible, then place at the curb on grass. All carts need to be placed at the curb by 6 am on the morning of your pickup.

If you follow these guidelines, you shouldn't have any problems with your collection. If there are issues, you can call Johnson County Refuse, Inc. at 319-665-4498 to report it. Our job is to provide you with the best collection possible, so please don't hesitate to reach out!

You have now received your new recycling cart; you will no longer be able to use your old recycling containers after July 1, 2019.

All carts need to be placed at the curb by 6 am.

JOHNSON COUNTY REFUSE INC. 319-665-4498
